

Surface core drilling rigs

Our surface core drilling rigs are designed to handle tough geological formations while providing high-quality core samples. These rigs are equipped with advanced technology to ensure ...

Surface core drill rig is a machine that uses the rotary force of drill bits to cut and crush rocks and keeps drilling deeper to get the core. It is a diamond drill rig or a hard-metal drilling rig. This ...

Our surface core drill rigs are engineered to meet the demands of hydraulic core sample drilling, geotechnical engineering, and exploration drilling projects. With easy transportability in ...

Surface core drilling rig Christensen CT20 has a drilling depth capacity of 2,450 meters. The rig comes truck-mounted or crawler-mounted, which means it can ...

For detailed geological data from quality core, you need safe, hassle-free meters from a drilling contractor with the right technical expertise.

A core drilling rig for deep depths and all ground conditions Product description Boyles C8C is the most powerful rig in the Boyles range, yet easy to operate. This rig has a new feed system that ...

The KRFT 1800 Surface Core Drilling Rig is an advanced drilling system used primarily for deep core drilling in geological and mineral exploration. Designed ...

The Surface Core Drilling, one of the most recognized small-format drills in the industry, is a flyable rig with a depth capacity of 700 m that can be assembled in less than an hour. With its ...

Core drilling rigs are essential tools in the construction, mining, and geological exploration industries. Whether you're building a skyscraper, exploring mineral deposits, or ...

Discover high-quality drilling solutions with Sinocoredrill, a leading China manufacturer of drilling rig equipment and accessories. Our extensive range ...

The Christensen range of surface core drilling rigs has, over many years, established itself a reputation for reliability and ease of use. Many Christensen rigs are available on a simple ...

Our line of mid-size coring surface drill rigs are considered to be the most versatile in their class. Reliable in even the toughest conditions, these diesel ...

Our exploration and production drilling services are offered by our company T3 Drilling who provide

Surface core drilling rigs

specialised drilling and associated services to the mining ...

Tried and tested for many years, our surface core drilling rigs have proven their reliability. The backbones of these rigs are the strong Epiroc designed rotation ...

Christensen CS14 is a trailer mounted medium sized core drill rig for surface exploration applications. Now manufactured in Sweden, CS14 is built on the well proven Christensen ...

That, combined with our comprehensive experience in both underground and surface core drilling, makes us a great fit for your upcoming drilling program. ...

Surface core drill rig is a machine that uses the rotary force of drill bits to cut and crush rocks and keeps drilling deeper to get the core.

For your next surface core drilling project, insist on the best rigs and tooling for the best results. Boart Longyear manufactures rods with various thread types to meet your drilling needs.

Our intelligent surface drill rigs bring the latest technology to surface mining applications. Designed to work in the toughest operating conditions, our surface drill rigs combine power ...

Surface core drilling rig Christensen CT20 has a drilling depth capacity of 2,450 meters. The rig comes truck-mounted or crawler-mounted, which means it can be easily transported. Despite ...

The Boyles C5/C5C surface core drilling rig is compact, yet powerful. Its compact design makes it easy to position and transport, even by helicopter. During helicopter transport, the rig is broken ...

A Surface Core Drilling Rig is a type of drilling equipment used primarily in mineral exploration and geotechnical investigations to obtain core samples from the ...

Product description The Boyles C5/C5C surface core drilling rig is compact, yet powerful. Its compact design makes it easy to position and transport, even by helicopter. During helicopter ...

Christensen 140 Surface core drilling rig fMEETING THE HIGHEST STANDARDS Safety and success in surface core drilling. Our Christensen surface core ...

The EDM45K-D is a compact yet powerful heavy-duty surface core drill with deep hole capabilities. Track mounted for excellent maneuverability in harsh site ...

The EM-C300 surface core drilling machine is a compact, high-performance drilling rig built for core sampling and geological exploration in hard-to-reach environments. With a maximum ...

Surface core drilling rigs

Core Drilling Equipment and Machinery Having the right tools for your construction project ensures efficiency and accuracy and defines the success of the drilling operation. ...
