

Surface drill rig

Surface drilling rigs are essential in horizontal directional drilling operations. They are typically used to drill pilot holes, perform back-reaming, and install subsurface pipes, ...

Surface coring for deep hole exploration companies who want to target contracts with the highest safety standards, without compromising on productivity.

This pride and experience that we have gained in the production of the surface drill rigs has contributed to our continuous development and makes it easier for us to offer solutions to our ...

Whether you're conducting preliminary exploration to mine development, or environmental monitoring to restoration and reclamation, the wide array of ...

The SANDVIK Pantera DP 1600i is an advanced surface drill rig designed for efficient and high-precision drilling in demanding conditions. Equipped with a ...

Exploration: Surface You need diamond core drilling solutions for both shallow and deep hole, small and large diameter core, including wireline and ...

Surface drill rigs are used for blast hole drilling in construction, quarrying, and open-pit mining, covering a hole range between 27-229 mm. We offer the ...

Discover our wide range of surface drilling equipment within mining, quarrying, construction, civil engineering and the dimension stone industry. Read more about our range or [Surface drill rigs](#)

Discover our wide range of surface drilling equipment within mining, quarrying, construction, civil engineering and the dimension stone industry. Read more ...

Ranger(TM) DX700 is a hydraulic, self-propelled, self-contained and crawler-based surface rig with an ergonomic, high-visibility cabin and rod handling system. Typical applications are road ...

As decarbonization efforts accelerate across the surface mining sector, Sandvik has unveiled its second battery-electric concept surface drill ...

Epiroc is a one of the leading drill rig manufacturers in the world. We offer rock drilling machines and other equipment for many different applications. For ...

Efficiently complete your exploration drilling with surprising pull and push power packed into versatile,

Surface drill rig

compact track-mounted sonic, rotary and direct push ...

Our surface drilling equipments are used in wide applications, such as mining, quarrying, civil engineering and other industries.

Introduction to Surface Drilling in Mining Surface drilling is a critical component in mining operations, responsible for creating holes in the earth"s surface for the ...

ST120F surface top hammer drill rigs are highly versatile, robust equipment to meet increasing productivity targets.The drill rig is equipped with a reliable LD120 or optional LD120H Sandvik ...

Discover the components, types, and applications of surface drilling rigs. Learn how truck-mounted, crawler-mounted, and skid-mounted rigs ...

Traxxon is a leading supplier of surface drill rigs from Sandvik in Canada, providing precision rock drilling equipment for challenging applications.

It is an operation of drilling holes in the stope of an open pit for separating and crushing original ecological ore rocks by blasting method. It is the first process of surface ...

Ranger(TM) DX800 is a hydraulic, diesel-powered, self-propelled top hammer drill rig with an ergonomic cabin and rod handling system. Typical applications are ...

Surface Drill Rig Simulators CYBERMINE Drill Rig Simulators provide best of class training for your drill rig operators, without reduction in productivity or risk to equipment.

Gill Rock Drill Company is a full service manufacturer and distributor of drilling equipment, tools, and supplies. We have multiple options available when it comes to the need for our surface ...

The Surface Core Drilling, one of the most recognized small-format drills in the industry, is a flyable rig with a depth capacity of 700 m that can be assembled in less than an hour.

Ranger(TM) DX910i is the flagship model of Ranger(TM) DXi family. Equipped with Sandvik intelligence features, this powerful drill rig has an optimized drilling ...

A remotely radio-controlled hydraulic, crawler-based surface drilling unit, Dino(TM) DC420Ri is designed for drilling 51 to 76 mm (2 to 3 in.) hole sizes. It provides ...

Surface drilling rigs are hydraulic drill rigs typically designed for small to medium-scale quarries and small-sized open pit mines, suitable for rock drilling ...

Surface drill rig

Surface rigs are essential industrial platforms used in a wide range of sectors--from oil and gas extraction to construction and renewable energy ...

Surface Drill Rigs The best for major rock drilling challenges VersaDrill's surface drill rigs can handle a lot of force and pressure. Easy reconfiguration helps you optimize your investment; ...

The SDC170 fully hydraulic surface down-the-hole drill rig can meet the needs of large hole diameter in surface mines and quarries. It is safe, environmentally ...
