

Swiss rock drill sleeve manufacturer

What is iSwiss tooling?

Our mission is to supply all American manufacturers with the highest quality tool and work holders in the industry at the quickest lead time possible. iSwiss offers high quality tooling that especially caters to the sliding headstock and CNC lathe community.

What is a Drillmeister sleeve?

The product of simple design and engineering technology, the new DrillMeister drill sleeves not only make the drill installation easy but also allow quick changing of drill heads while remaining in the limited space of the Swiss lathe, significantly reducing machine downtime when compared with solid carbide drills.

What sleeves are available for Swiss type automatic lathes?

to be applied to Swiss type automatic lathes. The new exclusive sleeves are available in two types: fixed tightening length type sleeve (TSL-NC) and adjustable tightening length type sleeve (TSL-SW), and an internal coolant system with an coolant hose allowing for higher cutting performance and increased tool life through i

Why should you buy from a Swiss toolmaker?

Founded in 1963 by a Swiss Toolmaker, our commitment to manufacture quality tooling has always been the cornerstone to our success. Assuring our customers with complete transparency so that you know what you are buying and more importantly who you are buying from.
