

Torque for rigid drill r860052

What is the Ridgid R860052K drill/driver?

The Ridgid R860052K drill/driver is a tool with up to 1,500 rotations per minute and a 2-speed gearbox that lets you choose between lower and higher speeds. It also features a 24-position clutch for adjusting torque, allowing you to work on both delicate and heavy-duty jobs.

What is the Ridgid R860052K drill?

The Ridgid R860052K is a drill /driver. It rotates up to 1,500 RPM with a 2-speed gearbox and a keyless 1/2 inch chuck and 24 POSITION CLUTCH for controlling torque. Dial it down for delicate projects or let it rip for heavy-duty construction jobs.

How much torque does a Ridgid R866010 have?

The Ridgid R866010 18V Brushless 1/4 in. Ratchet delivers 45 ft-lbs of torque. Its brushless motor offers fastening and removal speeds up to 325 RPM, providing better performance and longer runtimes compared to previous models.

What is the RIDGID 1/2 in Drill/Driver Kit?

RIDGID introduces the 18V 1/2 in. Drill/Driver Kit with (1) 2.0 Ah Battery, 18V Charger, and Tool Bag. The 1/2 in. Drill/Driver features a powerful motor that delivers 525 in./lbs. of torque and 20% faster drilling when compared to the previous generation (R8600521). This model is 15% lighter weight and offers improved ergonomics.

What are the features of the RIDGID r860052K?

The RIDGID r860052K comes with 2 INCLUDED HYPER LITHIUM ION BATTERIES (R840085 1.5AH 18V). These batteries are compatible with many other Ridgid tools and offer onboard fuel gauges, allowing you to know how much power you have before you need recharging.

Do Ridgid drills use lithium ion batteries?

Ridgid drills, including this Ridgid R860052K model, do use lithium ion batteries. Two 1.5 Amp Hour Hyper lithium ion batteries are included with this drill, and they can also be used with other Ridgid 18 volt power tools. Use these as backups for long hours of work without a charger. A charger is included in the package.
