

Tracked drill rig

What is a track mounted drill rig?

Geotech operates a fleet of track mounted drill rigs throughout our operations. Outfitted with a track system, these rigs are perfect for difficult access locations, where access conditions are difficult. Our track rigs have been designed to service many industry sectors including; construction, mining, oilfield, dams, and pipeline investigation.

What is a track rig?

Our track rigs have been designed to service many industry sectors including; construction, mining, oilfield, dams, and pipeline investigation. The track rigs are also multidimensional and can complete an array of drilling methodologies, including; rotary air blast, diamond coring, air coring, mud rotary, reverse circulation and bulk sampling.

Why should you invest in Geoprobe® track drill rigs?

Engineered with versatility and ease in mind, investing in Geoprobe® track drill rigs provides efficient success off the beaten path by nimbly maneuvering you to remote sites while diversifying drilling and sampling options all with a single track mounted drill rig. Don't see a feature you're looking for on your track drill rigs? Give us a call

What is a good auger drill?

The CME-55LCX/300 is a very capable auger drill with compact rubber track drill mobility. The CME-850X can go places you can't even walk. The high flotation allows you to negotiate soft mud, deep snow or sand. Tracks with steel grousers give it aggressive climbing ability. And, the walking beam suspension easily climbs over rocks and fallen logs.

What is remote control track Drive?

Remote control track drive allows this machine to climb hills, traverse mud, sand, rocks and snow while the operator's feet are planted firmly on the ground. Independent track drive controls, engine speed and carrier front winch are all operated by remote control with emergency back-up manual controls provided.

Do all rigs have a hammer?

All rigs are rubber-tracked and can traverse rough and steep terrain. Some rigs have remote control for tramming. All rigs have calibrated autohammers for standard penetration testing. CME-55 Specifications

Geotechnical & Environmental Multi-Sonic MS-75 Track Mounted Sonic Drill MPP's new track-mounted sonic drill is the first rig in our Multi-Sonic line. The MS-75 features a compact, low ...

Track drilling rigs are essential tools extensively used in various industries, including oil and gas exploration, mining, and construction. They are specially designed to ...

Tracked drill rig

Comacchio GEO line rigs can adapt to virtually any rotary drilling application, as well as rotary percussion drilling techniques, in all geological formations. ...

Sandvik DU211-T is a compact track-mounted in-the-hole (ITH) drill rig with a minimum width of 1.2 meters. Designed to carry ITH hammers powered with ...

55/300 Features | 55/300 Specifications | 55/300 Optional Equipment Performance ratings are based on engineering specifications, calculations and ...

Ranging in size from small, limited access drilling rigs to large platform/big performance sonic drilling rigs, our drill rigs cover a range of applications.

Track drilling rigs are the workhorses of subsurface construction, essential in projects ranging from soakaway pits to cavity probing. In this blog, we'll break down how these ...

Search for used track mounted drill rigs. Find Bay Shore, Atlas-Copco, Boart Longyear, Watson, Ingersoll Rand, IMT, LoDril, and Delmag for sale on Machinio.

Explore Rig Source's extensive selection of rental drilling equipment, including geotechnical, environmental, core drilling, and more. Browse our available rentals today!

As the heir to our popular SOIL-XLS drill rig, the Acker REBEL XL continues its legacy with added features and a new mid-sized track system. Like all Acker ...

Track drill rigs take accuracy drilling to the powerful through a combination of inventive highlights: Hydraulic Ground Strain Control: This ...

This drill rig is mounted directly on a tracked carrier enabling easy access to off road locations & meets our customers demands to access sites that ...

Epiroc is a one of the leading drill rig manufacturers in the world. We offer rock drilling machines and other equipment for many different applications. For ...

Engineered with versatility and ease in mind, investing in Geoprobe's track drill rigs provides efficient success off the beaten path by nimbly maneuvering you to remote sites while ...

The ZT44 is a down-the-hole surface drill rig designed for mining-duty applications. It offers high reliability and production with purpose-built structures, a high horsepower engine and large ...

Multi-functional, powerful tracked drilling rig with mast stroke 3500mm; to be specifically used for tie-rods

Tracked drill rig

and micro-pile drilling operations. Purchase Price: \$255,000

SANDVIK D75KS ROTARY DRILL RIG (Ref#299T) Year 2011, Cat 3412 diesel engine, Sullair LLC compressor, mounted on track, fleet maintained and in ...

The ATD100 Air Track Drill Is A Self-Propelled Pneumatic Crawler Drill That Can Be Used For Both DTH, Drifter + Seismic Drilling. Easy To Operate + Maintain.

The CME-55LC/300 rubber track drill has a unique feed and retract system and a quick disconnect mast that allow you to work under service station canopies, ...

ALLTRACK AT-80HD is a rugged, dependable, and robust all-terrain tracked carrier. With features like a heavy duty walking beam suspension and powerful hydrostatic drive system, ...

Track drive Hydrostatic closed-loop transmissions consisting of variable displacement piston pump, two-speed bent-axis piston motor, and double ...

Compact Track Rig Amdrill has 6 Compact Track Rigs! Our Compact Track Drill Rigs or Mini Rigs are ideal for any job site with tight accessibility like: garages, narrow gates, narrow lots, pool ...

Drill rigs and mineral exploration drilling equipment for CME rubber tire ATV, truck, track carrier, trailer and skid mounted geotechnical drilling rigs.

MPP's new limited access geotechnical drill. This compact, rubber-tracked rig was designed to complete work on drill sites where access is limited and/or ...

Both in-out and sideways slide bases are standard equipment on the CME-55/300 track drill. An 18 inch (45.7 cm) in-out movement allows you to quickly move ...

Terramac crawler carriers accommodate a diverse selection of drills commonly used for geotechnical, environmental, sonic, and exploration drilling applications.

Looking for a VersaDrill Canada rig for sale or rent? VersaDrill is the leader in hydraulic drilling rigs. Find the best track mounted drill rig at Rig Source.
