

Trackless drill rigs

Our emphasis is based on providing Level 9 trackless mining machinery control that adheres to ISO 21815 (collision warning and avoidance standard). The system can interface with all ...

DL4 production drilling rig is developed for long hole mining can drill holes with diameter from 64mm to 89mm and maximum 41m deep. The suitable cross-sections (width x height) is from ...

We just stock OEM-prescribed certifiable parts to our clients. Amicable staff with custom fulfillment. Kits are composed of client explicit requirements. Drilling equipment - Drill rods, ...

The SQT D, our larger trackless double boom drill rig, is designed for optimal performance in underground operations. Its primary function is to drill shot holes in rock faces.

GST SQT D BIG RIG - TRACKLESS DRILL RIG The SQT D, our larger trackless double boom drill rig, is designed for optimal performance in underground operations. Its primary function is to ...

Precision Rigs specializes in manufacturing DTH rigs for mining, exploration, and drilling. Our rigs are versatile, mountable on crawlers, trucks, or trolleys, and we also produce hammers, drill ...

Erebus Drill Rigs Erebus Drill Rigs by Newland Engineering deliver precision, safety, and control in underground core drilling operations. Designed for high-performance in confined ...

The use of trackless self-propelled equipment in underground mines started in the 1960s. Trackless self-propelled equipment include wheeled vehicles and caterpillar vehicles, ...

We pride ourselves in providing a diverse offering to a niche market-buying and refurbishing trackless underground mining machines to be used predominantly in gold, platinum, diamond ...

ENKEC DTH150 mining down-the-hole drill is mainly used for deep hole drilling in non-coal underground mines, tunnels, water conservancy and other geotechnical engineering for all ...

Explore a wide range of advanced and versatile trackless equipment designed for various industries. From mining and construction to agriculture and more, discover innovative ...

The GST SQT D-LP trusted by industry leaders Samancor Chrome and Glencore! Introducing the revolutionary SQT D-LP (Low Profile Safe Quality Trackless Drill Rig), your ultimate solution for ...

We provide integrated solutions for Core drilling and RC drilling for your Surface and Underground

Trackless drill rigs

Exploration job with full range of products, please learn ...

Various types of XLP equipment were tested at different sites within Anglo Platinum and this paper describes the XLP equipment evolution to-date. It concludes with recommendations on ...

The Trackless Drill Rig Operator is accountable for the safe operation, set-up and tramming of the Sandvik DD321 drill rig, achieving established daily operational targets, recording prescribed ...

This adds to the dilution, and shaft head grades are lower than for conventional mining. Little if any manual work needs to be done. In the best example, trackless machines perform all ...

Fermel (Pty) Ltd is a 54 year old veteran in the mechanization of mining equipment, established as a leading innovator and manufacturer of underground mining equipment for both hard-rock ...

Some of the equipment would require a service prior to delivery. We also have maintenance plans for all trackless equipment. A first in the industry. WE SET THE TREND AND OTHERS ...

trackless low-profile double boom drill rig is engineered for excellence, designed to tackle the toughest drilling tasks with ease and precision. Why choose the SQT-D-LP? ...

ENKEC is a professional R& D and manufacturing company for underground mining equipment. Our main products of drill jumbos includes wheeled face drilling rigs and tracked ...

CYTJ45 rock drilling rig is a fully hydraulic rock drilling rig specifically designed for mines. It adopts hydraulic control and is equipped with heavy-duty drilling ...

Trackless mining has been described as the replacement of track mounted locomotives, hoppers, scraper winches and hand held drilling equipment with rubber tyred load haul dump (L.H.D) ...

Our advanced underground drilling jumbo products are engineered for precision and efficiency in mining tunnels. Equipped with powerful rock drills, this ...

Our Services MANUFACTURING & ENGINEERING SIMULATIONS & TRAINING RESEARCH & DEVELOPMENT Our Products SQD Drill Rig SQT-D-LP Trackless Drill Rig SQL Loader ...

Through new developments and customisation of existing machines, our range of trackless mining equipment attests to our ability to innovate. New developments are driven by customer ...
