

Trinidad drilling rig specs

Who is Trinidad Drilling?

Company Description: It's not the Caribbean but North America that is the focus of Trinidad Drilling (formerly Trinidad Energy Services Income Trust). The company provides contract drilling to a range of oil and gas companies.

What are the specifications of a drilling rig?

Specifications for drilling rigs include table opening, pull-up, top head travel, and lift capacity. Drilling rigs are equipped with pumps that dispense drilling fluid or drilling mud to remove cuttings from holes. Drilling fluids also prevent other fluids from entering the hole and exerting enough pressure to cause a blowout.

Which rig is best for drilling lateral sections?

The latest breed of our legendary ADR[®] is a more powerful, agile rig to drill long lateral sections in horizontal wells and execute rapid moves from pad to pad, the ADR[®] 1500S. Our ASR(TM) 150 is the industry's most advanced service rig.

What is a service rig?

It is a fully automated service rig that eliminates all manual manipulation of tubulars from the pipe rack to the make-up of a connection, reducing the number of personnel on the rig floor and making it safer, quicker and more efficient to move between wells. Ensign. The world's most resourceful energy services company.
