

Underground drilling rig factory

How does a drilling rig work?

These rigs typically consist of a drill head attached to a primary winch line pull system. They rotate slowly, thrusting into the ground to create a hole that can be expanded using additional drill pipe and techniques. According to Technavio, the drilling rig market is estimated to grow at a CAGR of 6.16% between 2022 and 2027.

What kind of drilling equipment does Epiroc offer?

Epiroc offers state of the art drilling equipment for underground mining and tunneling. Our comprehensive range of rigs cover all your needs for production drills and face drilling rigs.

How big is the drilling rig market?

According to Technavio, the drilling rig market is estimated to grow at a CAGR of 6.16% between 2022 and 2027. The size of the market is forecast to increase by USD 15.36 billion. Here are some important considerations to make sure to meet the specific needs and expectations.

How did Drillrigy transform our business?

Drillrigy truly helped us transform our business. We are incredibly pleased with the comprehensive drilling solutions provided by Drillrigy. Their water well drilling rig, crawler drilling machine, and geothermal drilling rig proved instrumental in helping us successfully complete our sustainable energy project.

What is a Drillrigy rig?

Rigs are designed with a diverse range of features to ensure they can efficiently penetrate different types of ground and reach the desired depth. For example, Drillrigy rigs equipped with hydraulic top-head drive systems offer powerful and versatile drilling solutions in diverse soil conditions.

What is a Simba long hole drilling rig?

Simba long-hole drilling rigs offer a variety of feed lengths, positioning configurations and rock drills built for quick setup and accurate hole placement. Epiroc's rugged face drilling rigs are built for blast hole drilling in underground mining and tunneling. Choose your model of jumbo here and read more!
