

Unit drilling rig 123

How many rigs does Unit Drill?

Unit Drilling Company was founded in 1963 with three drilling rigs. Today, the company operates 14 onshore drilling rigs in various regions throughout the United States. Unit is focused on its core operating basins in Texas, Oklahoma, Louisiana, and New Mexico.

Who is unit drilling?

Unit is focused on its core operating basins in Texas, Oklahoma, Louisiana, and New Mexico. With over 60 years of experience, Unit Drilling offers super-spec, pad-optimal rigs with excellent crews. Unit prides itself in its rig crews and an unmatched level of professionalism.

What rig is used to Spud a Selene well?

The spudding of the Selene exploration well and the Pensacola appraisal well will be undertaken using the Valaris 123 jack-up rig. The pair will be drilled as a two-well sequence, with the contract and mobilization slated to begin in the June-July 2024 period.

What rigs will be drilled during the contract?

During the contract, the rig will work on the Selene exploration well and the Pensacola appraisal well. As Selene and Pensacola will be drilled sequentially, this creates the potential for operational efficiencies associated with being part of an extended programme of wells.

How many people can fit in a Valaris 123 Keppel FELS rig?

The 2019-built Valaris 123 Keppel FELS, ultra-enhanced super 'A' class jack-up rig comes with a maximum drilling depth of 40,000 ft and can accommodate 145 people. Valaris recently won a six-well contract with TAQA on the Porthos carbon capture and storage (CCS) program in the Dutch North Sea for the rig.

How long will a rig contract last in 2024?

The contract is scheduled to start in the fourth quarter of 2024 and has a minimum duration of 170 days. The deal includes options for up to ten wells with an estimated total duration of 300 days. In addition, the rig secured a one-well contract with Ithaca Energy in the UK North Sea, which is due to commence in April 2024.
