

## Unit drilling rig 201

What is Rig 201?

It contains the first 4,000-horsepower draw works ever built, capable of holding 2 million pounds of pipe. The largest land derrick in the world, Rig 201 is well on its way to setting a record drilling depth of more than 33,000 feet. The rig's birthday party last June attracted a crowd of celebrities.

How deep can Rig 201 drill?

Rig 201, capable of drilling to 50,000 feet, almost 10 miles deep, is considered the flagship of Parker's fleet of 147 land drilling rigs. Spudding of the well will take place about Oct. 1 and is expected to be the deepest drilling operation in the United States since Parker drilled a well to almost 30,000 feet in Elk City in the early 1980s.
