

What should I do if there is no subtitle for the down-the-hole drill

What is a down-the-hole drill?

A down-the-hole drill, usually called DTH by most professionals, is basically a jackhammer screwed on the bottom of a drill string. The fast hammer action breaks hard rock into small cuttings and dust that are evacuated by a fluid (air, water or drilling mud). The DTH hammer is one of the fastest ways to drill hard rock.

What is down the hole hammer drilling?

Down the hole hammer drilling also offers the advantage of faster penetration rates, allowing for quicker completion of drilling projects. This increased speed can lead to significant cost savings for companies, as less time spent on drilling means reduced labor costs and improved overall efficiency.

Is watching a movie with subtitles a bad idea?

Most agree that watching a show/movie with subtitles in English (or your native language) is a horrible idea. However, many say that the absolute best way to improve comprehension is a movie/show in your target language with NO subtitles. I'm at a point where I still don't understand everything said but get the idea of what is going on.
