

Wholesale big beaver auger drill rig pricelist

What size Auger do I need for a Big Beaver?

The Big Beaver is designed to work with 4"-18" D-series augers. When deep holes are required, auger extensions can be added to let you drill down to 30' with a 16" auger and up to 100' with a 6" auger, depending on soil conditions. The Big Beaver excels at foundation repair, efficiently drilling pier holes up to 16" in diameter.

What is a Big Beaver drill?

The Big Beaver is the most powerful earth drill produced by Little Beaver, the leading manufacturer of torque-free, one-man earth drills. Ideally suited for drilling environmental test wells, soil sampling and foundation repair, the Big Beaver offers one-man operation and portability in areas inaccessible to truck-mounted units.

How to choose an auger drill rig?

How to Choose an Auger Drilling Rig? First, choose the drill bit as large as the diameter of the hole: The diameter of YG Machinery's auger rig ranges from 100mm to 1200mm, and the range is very wide.

What is a Big Beaver used for?

Ideally suited for drilling environmental test wells, soil sampling and foundation repair, the Big Beaver offers one-man operation and portability in areas inaccessible to truck-mounted units. The Big Beaver is designed to work with 4"-18" D-series augers.
