

Wuxin Tunnel Rock Drill Price

Electric proportional hydraulic control, simpler operation, more convenient, flexible, and accurate drilling positioning; Equipped with functions such as automatic drilling, automatic retraction, ...

Wuxin Tunnel Intelligent Equipment Co.,Ltd, established in 2010, is the first Subsidiary company from the Wuxin Group to be listed in the China stock market. As a professional manufacturer ...

UNIROC is a professional leader China Tunnel construction equipment, Non-coal mining equipment, Mining drilling rig manufacturer with high quality and reasonable price.

WD561 Hydraulic face drilling rig for tunnels and mines with small cross sections. WD561 is the intelligent and efficient single-boom remote electro-proportional hydraulic control drilling rig for ...

Wuxin Double Curved Arm Rock Drill Trolley adopts the first curved arm structure in China, which is a new type of rock drilling tool developed by Wuxin for the mechanised construction of ...

China Tunnel Rock Drill wholesale - Select 2025 high quality Tunnel Rock Drill products in best price from certified Chinese Drilling manufacturers, Hole Drilling Machine suppliers, ...

The tunnel is designed as a curve-shaped separation type, with poor stability of the surrounding rock, high safety risks, environmental protection and soil and water conservation requirements ...

Drilling and anchor rod installation can be completed on the same propulsion beam, with a built-in clamping device that can assist in disassembling and assembling drill rods, making operation ...

In recent years, with the continuous advancement of tunnel mechanized construction, rock drilling operations pay more attention to safety and ...

Wuxin Tunnel Intelligent Equipment Co.,Ltd, established in 2010, is the first Subsidiary company from the Wuxin Group to be listed in the China stock market.

Recently, the Wuxin Tunnel-equipped double-boom rock drilling rig arrived at the project department of the Yichang section of Yilai Expressway ...

The robotic arm has flexible movements, no dead corners in construction, and a large working range; Adopting mechanical four-wheel drive, front wheel steering, abundant power, and a ...

Compact dimension, capable of meeting a minimum working cross-section of 1.9 × 1.9m; Fast drilling

Wuxin Tunnel Rock Drill Price

speed, equipped with an 18kW rock drill, with a maximum speed of 3m/minute; Remote ...

Fully computer-controlled drilling system, automatic positioning and hole drilling, precise control of feed angle and hole depth, and small over-excavation; The worker safely far away from the ...

The double-boom rock drilling rig installed in Wuxin Tunnel overcomes various difficulties in construction, and is more and more widely used in construction scenarios.

Equipped with three robotic arms and three work platforms, prefabricated arch installation effectively prevents rockfall and improves operational safety; Configure anchor rod arms, and ...

Remote control electric proportional operating system, easy to operate and learn, safe and reliable; Equipped with dual functions of resin and pipe joint anchor construction, one machine ...

The pioneering sliding arm structure has a wide operating range and significantly reduces the length of the entire vehicle, which can meet the requirements of multi section construction and ...

Recently, China Electric Power Construction Group (Group) Co., Ltd. announced the list of rock drilling rig suppliers for the years 2024-2025. With years of technological accumulation and ...

High torque output, minimizing the risk of drill jamming; Double buffering system, maximizing capacity to absorb stress wave recoil; High impact frequency reducing drill bits and drill pipe ...

In order to improve the product service quality and the skill level of after-sales service engineers, Wuxin Tunnel Equipment Company has decided to organize skill improvement training ...

The first domestically developed curved boom structure, with a small overall size, can meet the construction needs of most section types in tunnels and tunnel construction, especially for ...

It also successively launched new products such as the intelligent tunneling drill rig WD561-Max, the two-arm mining hydraulic tunneling drill rig WD582, and the double-sliding ...

Wuxin Tunnel Intelligent Equipment Co.,Ltd, established in 2010, is the first Subsidiary company from the Wuxin Group to be listed in the China stock ...

China Tunnel Rock Drill Machine wholesale - Select 2025 high quality Tunnel Rock Drill Machine products in best price from certified Chinese manufacturers, suppliers, wholesalers and factory ...

Compact dimension, minimum 1.9 x 1.9m working section; Fast drilling speed, equipped with 18kW rock drill, up to 3m/min; Remote control operation, easy to learn and safe operation.

Wuxin Tunnel Rock Drill Price

Wuxin Double Curved Arm Rock Drill Trolley adopts the first curved arm structure in China, which is a new type of rock drilling tool developed by Wuxin for the ...

As one of the first listed companies on the Beijing Stock Exchange (abbreviated as Wuxin Tunnel Equipment, stock code: 835174), Hunan Wuxin Tunnel Intelligent Equipment Co., Ltd. has ...

Double layered propulsion beam configuration, adaptable to flexible matching of drill rods of different lengths, can simultaneously meet the needs of excavation space operation and ...

Equipped with three robotic arms and three work platforms, prefabricated arch installation effectively prevents rockfall and improves operational safety; Quick positioning, three arches ...
