

XY-5 core drilling rig weight

XY-5 drill rig is a new core drilling equipment applied to diamond drilling and a number of new drilling techniques. It is also well suited to engineering ...

The XY-5TR core drilling equipment is a new type of drilling equipment that uses the XY-5 vertical axis core drilling rig as the main body and integrates drilling towers, mud pumps, and trailer ...

XY-5 TR core drilling rig is suitable for conventional diamond core drilling in geological exploration such as metal and un-metal mine, coal and oil field, gas ...

XY-5A drill is a core drilling machine that adds drill tower and equips with wireline coring winch on the basis of XY-5 drill. It can realize move of the complete machine and can meet the new ...

XY-4 core drill rig is mainly adapted to suit mineral with diamond bit or tungsten-carbide tipped bit. It can also be used for engineering geology and groundwater exploration and shallow layer oil ...

The upper frame is composed of two parts; it is small in volume, light in weight, and easy to be disassembled and moved. Has long feeding travel of vertical shaft, which is beneficial to ...

Xy-5 Diamond Core Drilling Rig for Hydro Geological, Find Details and Price about Core Drilling Rig Geological Exploration Drilling from Xy-5 ...

The XY-2B drill rig is a portable medium-shallow hole core drilling machine, primarily used for large and small hole core drilling applications including water wells, geothermal and irrigation ...

The machine is fit for engineering works of inclined and vertical hole drilling. It absorbs the merits, from XY-4, XY-44 and XY-5 drills, of compact in construction, rational in overall arrangement, ...

XY-5 is a mechanical transmit hydraulic feeding spindle-type core drilling machine. It is suitable for deeper core drilling and geophysical exploration. It is widely used in the exploration of ...

XY-5 core drill is specially designed to use in various drilling processes. Torque, drilling pressure, pump volume, pump pressure are controlled by a ...

The XY-5A drilling rig is a deep-hole core drilling rig with complete functions and stable performance. It is not only suitable for large and small diameter core ...

XY-44 drilling rig is mainly adapted to diamond bit drilling and carbide bit drilling of solid bed. It can also be

XY-5 core drilling rig weight

used for engineering geology and groundwater exploration; shallow layer oil and ...

XY-2B drilling rig is a kind of medium shallow hole core drilling machine. The utility model has the advantages of small size, light weight, large power and wide range.

The XY-2B drilling rig is a medium-shallow hole core drilling rig. It is not only suitable for large and small diameter core drilling with alloy and diamond as the main materials, but also can be ...

The drilling rig has upper and lower chucks. The upper chuck adopts hydraulic pin type, which can clamp reliably without damaging the active drill rod; the lower ...

XY-3 Portable core drilling rig XY-3 borehole drilling rig is mainly used for geological exploration, hydropower project, road and railway construction, building project and big diameter water well ...

XY-6B/6N type core drill rig is a spindle type drilling machine with mechanical and hydraulic transmission. It is a type of deep drilling equipment used in the fields of geological prospecting, ...

The document describes the XY-1A core drilling rig. It is a lightweight, compact rig that can drill holes up to 100 or 180 meters deep with diameters of 75 or 46 ...

XY-5 core Drilling Rig is suitable for conventional and slim-hole diamond drilling in geological hydrogeological and coal field exploration. It can drill vertical and ...

XY-1 Core Drilling Rig is suited for the applications of general exploration and investigation, geophysical prospecting, road and construction survey, blast ...

The XY-2 drilling rig is a medium-shallow hole core drilling rig. It is not only suitable for large and small diameter core drilling with alloy and diamond as the main materials, but also can be ...

Good dismountability, the net weight of drill rig is 350 dry grams, and the main engine can be decomposed into 10 parts, which is convenient for relocation and suitable for working in ...

The XY-44A drilling rig is a mid- to long-hole core drilling rig with complete functions and stable performance, which is modified and designed based on the XY-44. It is not only suitable for ...

We manufacture and supply XY-5L Drilling rig at a factory competitive price with features: XY-5L drill comes from XY-5 with drill tower and pedrail for 1800 meters diamond core drilling.

core drilling rig 1.pact structure, 2.light weight,easy move 3.high efficiency 4.reasonable price XY-1A Core Drilling Rig is a light type machine at high ...

XY-5 core drilling rig weight

XY-8 drilling rig is a full-featured, stable performance middle-deep hole core drilling machine. It is suitable for drilling of large and small diameter alloy and ...

The drill rig has wide base and low center of gravity. It has the ability to conduct stable drilling and equipped with general and large stroke-type gyrator to be ...

XY-5 Core Drilling Rig Specifications Rod OD (mm): For conventional swivel head : 750, 760 For large ID swivel head : 789 Drilling ...

The XY-5A core drilling rig can be used for oblique and straight hole drilling. It has the advantages of simple and compact structure, reasonable layout, moderate weight, convenient ...

XY-5 is a kind of deep-hole core drill rig, with complete functions and stable performance. It can be used to not only the large/small-diameter core drilling with diamond or ...

Video Technical Parameters Fundamental parameters Max. Drilling Short Description: XY-280 drilling rig is type of vertical shaft drill. It equips L28 diesel motor which is made from ...
