

Xdr 500 drilling rigs

What does XDR do?

See how we are achieving this now! XDR is a leading global brand of drilling rigs, oil & gas well servicing rigs and ancillary products for the international mining industry. Our focus is on delivering cutting edge solutions to the mining, oil and gas industries to increase the productivity and profitability of our clients.

What makes XDR unique?

demanding design and the highest possible levels of safety. XDR is a leading global brand of drilling rigs, oil & gas well servicing rigs and ancillary products for the international mining industry. Our focus is on delivering cutting edge solutions to the mining, oil and gas industries to increase the productivity and profitability of our clients.

What are XDR workover rigs?

Click Here For Further Information The XDR Workover Rigs are engineered for safety, breathtaking efficiency and combined with fascinating technology to create an incomparable difference to your clients. Drill Rig Spares Pty Ltd seeks patent protection, in Australia and overseas, for the technologies it develops.

Is XDR a sustainable company?

XDR is committed to sustainability in all aspects of operations. See how we are achieving this now! XDR is a leading global brand of drilling rigs, oil & gas well servicing rigs and ancillary products for the international mining industry.

What is a LR500 drill rig?

Completely designed and developed internally, the LR500 was built specifically to meet the increasing needs for deeper dewatering wells for Nevada mining. While there are deep hole drill rigs in the market, not all can achieve a 60 inch (152 centimeter) diameter hole for dewatering wells for mines.

How big can a LR500 drill hole?

The LR500 can drill hole sizes large enough to accommodate 20 inch (50 centimeter) casing down to 5,000 feet (1,524 meters). While there are rigs in the oil and gas market that are capable of more pullback, these slim hole rigs are not capable of drilling the diameters achievable by the LR500 while also being able to install the casing.

This represents an increase of 81% as the fleet will consist of 11 XDR 500, 2 XDR 400, 4 XDR 300, 4 XDR 200 drilling rigs and 8 XSR coiled tubing units. Amendment to Credit ...

Recognizing Boart Longyear's LR(TM)300 had depth and pullback limitations, the engineering team built the significant and incredibly powerful ...

Xdr 500 drilling rigs

Parts Storage Room and Tool House Room Rig Manager Trailer: 14" x 44" skid mounted 88"-9" All ratings quoted herein are manufacturer specifications. AKITA's normal operating parameters ...

Xtreme Coil Drilling Corp. announces the award of long-term contracts by a large exploration and production company to build and operate four new XDR 500 drilling rigs with ...

Smaller and faster than conventional workover rigs, they're intelligently tweaked to speed up projects, without compromising safety. We support oil and gas companies with the initial ...

Xtreme Coil Drilling Corp recently won long-term contracts to build and operate four new XDR 500 drilling rigs, with commencement of operations staged throughout 2012.

Xtreme (TSX: XDC.TO - News) anticipates that it will deliver the sixth of eight announced newbuild XDR 500 rigs early next week to the Bakken play in North Dakota. Over the past ten ...

AETI's M& I (R) power systems will power seven of Xtreme's new XDR 500 rigs. These drilling rigs include the latest technology innovations for horizontal drilling, including a maximum hook load ...

One new-build XDR 500 drilling rig completed and deployed to operations in the Niobrara in October 2011. Six new-build XDR 500 drilling rigs under construction for ...

Integrated hydraulic "stomper" style X / Y movement capacity. Dual Zipper style umbilical [11 0" displacement each, 220" total] connection for hydraulic and electrical supply. Standard ...

MAST 127" telescoping, Drill Line: 1-1/4" Static Hook Load: 500,000 lb/ Racking Capacity: 28,000" of 4" DP, 24,000" of 5" DP

Including these four new XDR 500 drilling rigs, Xtreme Coil has committed to adding eight XDR 500 drilling rigs to the fleet since the introduction of this model in October 2010. ...

These drilling rigs include the latest technology innovations for horizontal drilling, including a maximum hook load of 500,000 lbs, two 1,600 HP mud pumps, and a 350-ton AC ...

IN Q4, HAD TWO XDR 500 RIGS RELEASE EARLIER THAN EXPECTED FROM WELL, RESULTED IN ABOUT 90 FEWER DAYS THAN ANTICIPATED FOR QUARTER

During the third quarter of 2012, Xtreme mobilized one new-build XDR 500 drilling rig to Colorado and one rig that was converted from an XDR 400 to an XDR 500 rig to North ...

The recent announcement of the 850XE rig upgrades and the XDR 500 optimization program was the first step in the Company's strategy to re-position Xtreme as a high-spec ...

Xdr 500 drilling rigs

Equipped with XDR's revolutionary Snub Drill, the XDR rigs can perform well flushing, workover and completions, resulting in higher productivity at a reduced cost.

Xtreme Drilling and Coil Services Corp. ("XDC" on the Toronto Stock Exchange) designs, builds, and operates a fleet of high specification drilling rigs and coiled tubing well ...
