What is Nanxiang 100% oil-free screw compressor?

NANXIANG 100% oil-free screw compressor is a flagship product in our company's oil-free compressor series. 100% Oil-Free Air: Adheres to ISO 8573-1:2010 Class 0 standards, specifically designed for air quality in industries such as food and beverage, pharmaceuticals, textiles, and electronics.

What is an oil free screw compressor?

Oil-Free Screw Compressors: Uses what is called synchronised timing gears, the gears ensure that the screws rotate without making direct contact with each other, removing the need for oil lubrication. This helps keep the compressed air clean and reduces maintenance complexity.

Why are oil-free screw compressors important?

Oil-free screw compressors are vital for industries needing clean, contamination-free air. This guide explains their importance, working principles, cooling techniques, and benefits, ensuring optimal performance in applications with stringent air purity requirements. Contact us!

What lubricating medium does Simeon oil-free screw compressor use?

Simeon oil-free screw compressor uses pure water as the lubricating medium, and the main engine has no lubricating oil at all. Because of the cleaning effect of pure water on the air, the compressed air produced is absolutely pure, without any pollution. Oil free air compressor 11 KW - 250 KW

How do oil-free screw compressors work?

The solution is multi-stage compression. Instead of compressing the air in a single step, oil-free screw compressors use multiple compression stages. The air is cooled between each stage, preventing excessive temperature buildup and ensuring efficient operation.

What is a 100% oil-free air compressor?

A 100% oil-free air compressor is a type of air compressor that does not require oil for lubrication. Instead, it uses other methods such as water or special coatings to reduce friction and prevent wear and tear.
