

Having a knowledgeable and available world-class partner on site or online, makes the difference between doing it alone and tapping the experience and ...

In down-the-hole drilling a drill rod is fitted with a hammer at its lower end. The hammer, which is mounted on the drill bit, is activated through the addition of ...

Down-hole ø550 mm super large diameter coal seam borehole drilling technology and equipment and its engineering application SUN Yongxin

Yugong down-the-hole drilling rig uses hydraulic drive and high-pressure impactors to achieve rapid drilling. It is widely used in drilling operations under various rock hardness conditions, ...

A "down the hole" (DTH) drill is f drilling equipment used in mining, construction, and exploration activities. It is specifically designed for drilling large-diameter ...

When choosing a down-the-hole (DTH) drilling rig,you need to consider various factors. This article will guide you on how to choose the right down-the-hole (DTH) drill from three important ...

Down-the-hole, or DTH drilling allows for reaching greater depths with the hammer located right behind the drill bit. Robit is a leader in DTH products.

The ZGYX452H integrated DTH (Down-The-Hole) drilling rig is a highly efficient machine designed specifically for underground drilling operations. It is widely used in various fields, ...

Leopard(TM) DI560 is a highly mobile, compact, diesel-powered down-the-hole (DTH) drill designed for DTH blasthole drilling in mining, quarry and ...

Rock Drilling There are three methods of rock drilling for production holes: Rotary high rotational speed, low torque and thrust low ...

The integrated open-pit down-the-hole drilling vehicle is an advanced drilling equipment that integrates the down-the-hole drilling system and the screw air ...

The KT25 integrated down the hole drill rig for open use can drilling vertical,inclined and horizontal holes,mainly used for open-pit mine,stonework ...

Wide adaptability, YG150 down-the-hole drilling machine suitable for various mines, quarries, railways,

Yongxin down-the-hole drill rig

roads, water conservancies, and other projects. All ...

XD-420T Crawler Mounted DTH Drilling Rig Brief Introduction The XD-420T series crawler open-pit down-the-hole drill rig is a new type of down-the-hole drill developed to...

DTH drilling machine operates on a straightforward yet highly effective principle. A pneumatic or hydraulic hammer, positioned directly behind the drill bit, delivers rapid percussive blows to ...

Mastering the operation skills of down-the-hole drilling rigs can help everyone complete construction tasks more safely and efficiently.

A down-the-hole drill, usually called DTH by most professionals, is basically a jackhammer screwed on the bottom of a drill string. The fast hammer action breaks hard rock into small ...

This integrated down the hole drill rig combines air compressor and drilling functions, perfect for DTH boring machine operations in mining.

Discover the power of down the hole drilling technology featuring superior performance in hard rock, enhanced accuracy, and advanced automation capabilities for efficient and precise ...

The down-the-hole drilling machine is suitable for large-diameter blast hole rock drilling operations in small and medium-sized mines, road construction, water conservancy, and stonework, as ...

?????????? M ?????? ???? 6"?7" ? 8" ??????,????? ????????????,????????????????? ...

The SKQ100 DTH drilling rig is a pneumatic-powered machine that uses compressed air to generate mechanical force for efficient rock breaking. Driven by a reliable air motor, the ...

DTH drilling, also known as Down-the-Hole drilling, is a method used to drill boreholes into the earth's surface. This technique involves a hammer that is ...

The KG726III/KG726HIII down the hole drill rig for open use is an improved device in compliance with national regulations on environmental protection. Equipped with the Yuchai engine, the ...

Down the hole drilling rig is a specialized piece of equipment designed to drill deep holes into the earth's surface. DTH drilling utilizes a hammer mechanism that delivers powerful, rapid blows ...

The engineering application in Wangpo Coal Mine of Shanxi Tiandi Coal Industry Co. Ltd. shows that the drilling rig has large output torque, good overall stability, cross belt and rapid ...

An integrated down the hole drilling machine, also known as a one-piece drill rig, or crawler DTH drilling rig

Yongxin down-the-hole drill rig

is a powerful and versatile machine used in the ...

Epiroc offers the most comprehensive line of rotary blast hole drilling rigs in the industry. With a multitude of configurations to choose from you can find the ...

When choosing a down-the-hole (DTH) drilling rig, you need to consider various factors. This article will guide you on how to choose the right down-the-hole ...

Because Down-The-Hole hammers use a rapid percussive action to crush the rock they require much lower feed force (pull down) and rotation torque than ...
