

Yt-28 rock drill air leg parameters

What is yt28 air-leg rock drill used for?

YT28 Air-leg Rock Drill most fit for drilling horizontal and inclined blast holes in medium-hard and hard rock with a hardness of $f=8\sim 18$. It may also be used with for making roof-bolting holes. The drill is an important instrument in mining, railway, communication and water conservancy projects.

Is yt28 suitable for drilling rocks?

YT28 is suitable for drilling rocks with a hardness of $= 8\sim 18$. Page 4 Air-Leg Specifications Weight Length Feed Length Model (Kg) (mm) (mm) FT160 1668 1338 Installation and Lubrication Size air supply line to ensure tool's maximum operating pressure (P_{MAX}) at tool inlet.

Which lubricator is used in Rock Drill yt28?

The Rock Drill is equipped with lubricator FY200C. Secoroc YT28 is intended to be used together with pusher leg FT160BC and FT160BD for different tunneling and work conditions. It is also designed for dry drilling or wet drilling mounted on rigs. Specification Pneumatic rock drill YT28

How deep is a secoroc yt28 hole?

Secoroc YT28 is suitable for both horizontal and upward anchor holes in medium- hard and hard rocks ($f=8-18$). The hole diameter range is from 32 mm to 42 mm with depths up to 5 meters. The Rock Drill is equipped with lubricator FY200C.

How do you use a rock drill?

When you have finished drilling Run the rock drill at medium speed when retracting the working tool from the drilled hole. Lay down the rock drill on a stone, wooden plank or similar object, so as to prevent drill cuttings and other foreign matter from entering the chuck. Turn off the water pressure before the air pressure.

How do you lubricate a rock drill & pusher leg?

The rock drill and pusher leg are lubricated with oil mixed with compressed air, which is taken to the parts that need continuous lubrication. Oil is metered into the compressed air using the FY250 lubricator connected to the air line.

YT28 Rock Drill Features: 1. Air-leg rock drill is suitable for operation on medium-hard and hard rock. 2. ing for wet drilling or dry drilling are both OK. 3. Widely used in tunnel heading ...

YT-28 Air leg rock drill is the most modern drilling machine, which uses a modern design techniques, compared with the same type of product, with high ...

Fitur Air Leg Pneumatic Rock Drill YT-28 Konsumsi udara sangat rendah Konsumsi udara yang lebih kecil jika dibandingkan dengan bor batu ...

Yt-28 rock drill air leg parameters

Fitted up with line oiler and air-leg (FT160A for YT28). The machines are suitable for wet drilling in medium and hard rock. They can also be mounted on ...

Rock Drill YT28 Product Description: The Products are mainly used in construction sites, various types of mines, railways, water conservancy ...

China Air leg rock drilling machine Rock drill Jack hammer is efficient and lightsuitable for wet drilling down and inclined drilling on medium hard or hard (f=8-18) rock. The drilling diameter ...

Notes: The air pressure under test is 0.5 MPa. YT29A Air-leg Rock Drill (Hand held Jack Hammer) With the advantages of high speed, high efficiency and energy saving, YT29A Air ...

The YT28 air-leg rock drill is a kind of high-efficiency, energy-saving and environmentally friendly rock drilling equipment. Compared with similar pneumatic products, the YT28 air-leg rock drill ...

YT 27 Pneumatic Rock Drills YT27 is a highly efficient pusher leg rock drill. It is mainly used in either rock drilling work such as mining and tunneling, or in ...

YT28 AIR- LEG ROCK DRILL Applications: Most fit drilling horizontal and inclined blast holes in medium-hard rock with a hardness of f=8~18. It may also be for ...

Compared with similar pneumatic products, the YT28 air-leg rock drill has the advantages of low failure rate, fast rock drilling speed, long service life of wearing parts, low noise, light weight ...

YT28G air leg rock drill is a kind of rock drill with fast footage and stable efficiency. It is widely used in tunnel driving and various rock drilling operations. It is an indispensable important tool for ...

YT27 air leg rock drill Jack Hammer stands out as a cutting-edge tool in the realm of rock drilling machinery, owing to its remarkable high-speed performance. ...

The YT28 air leg rock drill is most suitable for dry drilling downward and inclined blast holes in medium hard and hard rock with a hardness of F8-18. An ideal ...

Application of YT Rock Drill Instruction of YT Series Rock Drill : 1. The rock drill is a kind of high-efficiency air-leg rock drill machine. 2. Used for blasting holes ...

The Rukton Minerals YT28 Air Leg Rock Drill is the most modern drilling machine which uses a modern design techniques, compared with the same type of product, with high efficiency, low ...

Yt 28 Air Leg Rock Drill offers high performance and competitive pricing. Ideal for energy, mining, and

Yt-28 rock drill air leg parameters

construction works. Video inspection and 1-year warranty. | Alibaba

With the superiority of its high speed, low failure rate, durable wearing parts, low noise and light weight, it has strong adaptability to different poor working conditions and reduce the customer ...

Secoroc YT28 is suitable for both horizontal and upward anchor holes in medium-hard and hard rocks (f=8-18). The hole diameter range is from 32 mm to 42 mm with depths up to 5 meters. ...

Encuentre aquí fabricantes y proveedores profesionales de taladros jackleg yt28. Estamos ofreciendo taladro jackleg yt28 de alta calidad a precios ...

The YT28 Hand Held Pneumatic Air Leg Rock Drill is a powerful and efficient drilling tool commonly used in mining, quarrying, and construction applications. It is designed with a ...

YT27 mini air-leg rock drill is a product that we developed, having advantages of all kinds of air-leg rock drills, Compared with other rock drills, YT27 mini air-leg rock drill adopts the latest ...

YT Series Pusher Leg Rock Drill: Reliable Power for Rugged Terrains Engineered as a high-efficiency pneumatic drilling solution for harsh mining conditions, the YT Series delivers 360° ...

The YT28 Pusher Leg Rock Drill Pneumatic adopts air-water linkage, rapid air leg retraction, air pressure adjustment, and other mechanisms. The control handle ...

Features: Grouped control mechanism, quick to start up with?air-on, water-on, air-off? mechanism easy handle and maintain. Low noise, small vibration, energy-saving and efficient, ...

The YT28 air-leg rock drill utilizes the technology of modern rock drills. Compared with similar products, it has the characteristics of high efficiency, low noise, ...

what's a rock drill :YT type air-leg rock drill is widely used in mine roadway excavation and drilling blasting holes in various rock drilling operations. High ...

Introducing the YT28 Air-Leg Rock Drill, an epitome of high-efficiency, energy-saving, and eco-friendly rock drilling technology. The YT28 stands out among pneumatic products with its ...

Series of YT Rock Drill Description YT Series Pusher Leg Rock Drill is a kind of high efficiency air leg rock drill machinery. rock drill is mainly used for digging into mine laneway and blasting ...

The YT28 rock drill is a pneumatic, handheld drilling tool commonly used for underground mining and tunneling. It utilizes rotational and impact motions powered by compressed air.

Yt-28 rock drill air leg parameters

YT28G air leg rock drill is a kind of rock drill with fast footage and stable efficiency. It is widely used in tunnel driving and various rock drilling operations. It is an indispensable important tool ...

YT-28 Air leg rock drill uses a gas water interaction, air leg quick return, pressure regulator and other agencies. Centralized control handle and the grip body, ...
