

Yt28 Mali rock drill performance parameters

What are the advantages of YT-28 air-leg Rock Drill?

Drill of energy-saving, high efficient, sturdy and durable, easy maintenance, high reliability. Accessories of strong universality. Accessories of strong universality, when replace the product, users will not lose profit. YT-28 Air-leg rock drill is suitable for rock drilling operations in large mines, medium mines and tunnels.

Is yt28 suitable for drilling rocks?

YT28 is suitable for drilling rocks with a hardness of $f = 8 \sim 18$. Page 4 Air-Leg Specifications Weight Length Feed Length Model (Kg) (mm) (mm) FT160 1668 1338 Installation and Lubrication Size air supply line to ensure tool's maximum operating pressure (P_{MAX}) at tool inlet.

Which lubricator is used in Rock Drill yt28?

The Rock Drill is equipped with lubricator FY200C. Secoroc YT28 is intended to be used together with pusher leg FT160BC and FT160BD for different tunneling and work conditions. It is also designed for dry drilling or wet drilling mounted on rigs. Specification Pneumatic rock drill YT28

What is secoroc yt28?

Scope of application Secoroc YT28 is a heavy-duty pusher leg rock drill featuring high efficiency and low air consumption. It is primarily designed for drilling in mines, hydropower stations, and road construction projects. It is also a new product suitable for tunneling and other stone works in mining and metallurgical industry.

How deep is a secoroc yt28 hole?

Secoroc YT28 is suitable for both horizontal and upward anchor holes in medium- hard and hard rocks ($f = 8 \sim 18$). The hole diameter range is from 32 mm to 42 mm with depths up to 5 meters. The Rock Drill is equipped with lubricator FY200C.

Engineered for optimal performance, the YT28 Rock Drill is perfectly suited for wet drilling applications in medium to hard rock conditions, ensuring reliability and effectiveness under ...

Compared with similar pneumatic products, the YT28 air-leg rock drill has the advantages of low failure rate, fast rock drilling speed, long service life of wearing parts, low noise, light weight ...

Discover the unparalleled efficiency and advanced technology of the YT28 Air-Leg Rock Drill, proudly brought to you by Xianghe Kaituo Mining Machinery Co., Ltd. This exceptional ...

YT Series is suitable for drilling horizontal or tilted blast hole in medium hard or solid hard rock ($f = 8 \sim 18$). It is the indispensable tool in mining, railway, transportation, water conservancy ...

Yt28 Mali rock drill performance parameters

It has superior performance and is the most reliable to use. The most efficient rock drill. It is most suitable for rock drilling operations in large mines, medium-sized mines, and tunnels. The ...

Its superior performance, is the most reliable, and it is most efficient drilling machine. YT28 Hand Held Air Leg Rock Drilling Machine is most suitable for large-scale mining, the medium-sized ...

Low noise, small vibration, energy-saving and efficient, highly interchangeable parts with long service life reliable performance. Different from similar products particularly in its high ...

Product overview The HAILI YT28 Mining Drilling Air Leg Jack Hammer is designed specifically for the coal mining industry, featuring robust performance powered by an air compressor. With ...

YT28 AIR- LEG ROCK DRILL Applications: Most fit drilling horizontal and inclined blast holes in medium-hard rock with a hardness of $f=8\sim 18$. It may also be for making roof bolting holes. The ...

The 32mm-41mm Taper Button Bits are high-performance drilling tools engineered for rock drilling and blasting in mining and construction. Crafted from forged high manganese steel, ...

Product details The Portable Handheld Rock Drilling Machine Earth Auger Rock Blasting Mini Drill Rig is a compact, high-performance pneumatic tool designed for efficient rock drilling in ...

Applications: Most fit drilling horizontal and inclined blast holes in medium-hard rock with a hardness of $f=8\sim 18$. It may also be for making roof bolting holes. The drill is an important ...

Fitted up with line oiler and air-leg (FT160A for YT28). The machines are suitable for wet drilling in medium and hard rock. They can also be mounted on ...

The YT28 air leg rock drill is most suitable for dry drilling downward and inclined blast holes in medium hard and hard rock with a hardness of $F8-18$. An ideal tool for rock drill operations in ...

Rock Drill YT28 with Air Leg Rock Drilling Machine Product Information: Pneumatic Rock Drills: This type rock drills use compressed air as power, mainly used in construction sites, various ...

The air-leg rock drill is installed on the air leg for operation, and the air leg can play the role of support and propulsion, which reduces the labor intensity of ...

These instructions were developed to help you get the best performance and productivity from the use of your new rock drill. Please refer to them also for correct maintenance of the machine. ...

Product Description Discover the YT28 Air-Leg Rock Drill, a paragon of cutting-edge, high-efficiency rock

Yt28 Mali rock drill performance parameters

drilling technology that harmoniously combines energy-saving capabilities with ...

Zhongtuo offers low price yt28 pneumatic rock drill jack hammer for mining & tunneling water well borehole drilling rig from its factory. Buy and wholesale ...

With the superiority of its high speed, low failure rate, durable wearing parts, low noise and light weight, it has strong adaptability to different poor working conditions and reduce the customer ...

Introduction of YT28 Hand Held Air Leg Rock Drilling Machine YT28 Hand Held Air Leg Rock Drilling Machine is the most modern drilling machine which uses ...

YT28 is a heavy-duty pusher leg Rock Drill featuring high efficiency and low air consumption is primarily designed for drilling in mines, hydro-power stations, and road construction projects is ...

YT27 rock drills before use: What is a pneumatic rock drill? 1, Check the integrity and rotation of all parts (including rock drill, bracket, or rock drill cart) before drilling, fill necessary lubricant, and ...

Optimized for superior performance, the YT28 Rock Drill is your go-to solution for wet drilling in challenging medium to hard rock conditions, ensuring consistent and outstanding results. ...

The YT28 air-leg rock drill utilizes the technology of modern rock drills. Compared with similar products, it has the characteristics of high efficiency, low noise, ...

China High Performance YT28 Air Leg Rock Drill Machine 5m Drilling Depth, Find details about China Rock Drilling Machine from High Performance YT28 Air Leg Rock Drill Machine 5m ...

Pneumatic Rock Drills: This type rock drills use compressed air as power, mainly used in construction sites, various types of mines, tunnel, railways, water conservancy construction ...

Description: YT28 Air-Leg Rock Drill it is designed for drilling medium to hard rock and performs effectively in tunneling, bench drilling and other rock excavation ...

Model: WTE-YT28 Brand: WTE Usage: Tunneling, Quarrying, Construction, Mining & other rock drilling. Features: Easy operation, Long life, Efficient energy, Low noise, Small vibration. ...
