

Yt28 rock drill air leg does not retract

Which lubricator is used in Rock Drill yt28?

The Rock Drill is equipped with lubricator FY200C. Secoroc YT28 is intended to be used together with pusher leg FT160BC and FT160BD for different tunneling and work conditions. It is also designed for dry drilling or wet drilling mounted on rigs. Specification Pneumatic rock drill YT28

How deep is a secoroc yt28 hole?

Secoroc YT28 is suitable for both horizontal and upward anchor holes in medium- hard and hard rocks (f=8-18). The hole diameter range is from 32 mm to 42 mm with depths up to 5 meters. The Rock Drill is equipped with lubricator FY200C.

What is secoroc yt28?

Scope of application Secoroc YT28 is a heavy-duty pusher leg rock drill featuring high efficiency and low air consumption. It is primarily designed for drilling in mines, hydropower stations, and road construction projects. It is also a new product suitable for tunneling and other stone works in mining and metallurgical industry.

How do you tighten a rock drill?

The tightening torque shall be 150 Nm. h Check the rock drill's connection to the pusher leg. h Check the hoses, couplings and controls for leakage and damage. h Check that the rock drill and pusher leg are receiving enough lubrication. Fill the lubricator as necessary. h Drain the water separator. h Check the air and water pressure.

How often should a rock drill be inspected?

Turn off the water pressure before the air pressure. Once a week (after 40 hours of operation) Carry out a basic check of all functions of the drilling equipment. Once a month (after 200 hours of operation) Send the rock drill to a workshop for inspection.

How do you re-start a rock drill?

If powerful blow-cleaning of the drill hole is required, turn the throttle lever fully backwards beyond the stop position for extra blowing, whereupon the rock drill stops. This can be done during drilling. When the drill hole is clean, turn the throttle lever forwards again to re-start the rock drill. 11 When you have finished drilling

YT28 air-leg rock drill is a new type of high-speed rock drilling machinery, mainly suitable for railway, highway, mining and other roadway excavation and ...

(1) Causes of failure: First, the air pressure in the pipeline is too high; second, the high power is suddenly turned on. (2) Elimination measures: one is to take pressure reduction measures; the ...

Scope of application Secoroc YT28 is a heavy-duty pusher leg rock drill featuring high efficiency and low air

Yt28 rock drill air leg does not retract

consumption. It is primarily designed for drilling in ...

It's one of the major quarry rock drills. YT23, YT24, YT27, YT28, YT29 Air Leg Hand-Held Pneumatic Rock Drill Machine for Quarry and Mining YT24, YT28 ...

The rock drill is a kind of high efficiency air leg rock drill machine. Jack hammer used for blasting holes and other drilling works in a quarries, railway ...

The YT28 Pneumatic Rock Drill is a robust and efficient drilling tool designed for use in mining, quarrying, and construction. This model is ideal for drilling holes ...

YT28(Air-leg)rock drill Our YT Air-leg rock drill machines has so many different models, including YT23, YT24, YT27, YT28, YT28A and YT29A. They are applied for wet drilling and ...

YT28 Air Leg Rock Drill Grouped control mechanism, quick of start up, with "air-on, water-on, air-off, water-off" mechanism, easy operation and maintenance. Low noise, small vibration, ...

Scope of application YT28 is a heavy-duty pusher leg Rock Drill featuring high efficiency and low air consumption is primarily designed for drilling in mines, hydro-power stations, and road ...

Rock Drill YT28 Product Description: The Products are mainly used in construction sites, various types of mines, railways, water conservancy ...

Adjust the air line lubricator to provide a light film of oil at the drill steel shank. Excessive lubrication is indicated by blue smoke at the exhaust or oil running down the drill steel.

Rock drilling tools manufacturer ProDrill: Model No. YT28 Pusher Leg Rock Drills are applied for underground mining, drifting. Features: 1. Grouped control mechanism, quick of start up, with ...

what's a rock drill :YT type air-leg rock drill is widely used in mine roadway excavation and drilling blasting holes in various rock drilling operations. High ...

YT28 air-leg rock drill is a new type of rock drill. It is widely used in quarrying, mining, tunneling, and drilling blast holes in various rock drilling operations.

High quality YT28 Portable Pneumatic Hand Held Air Leg Rock Drilling Machine For Hard Rock from China, China's leading product market YT28 pneumatic rock drilling machine product, ...

Model YT28. Bore X Stroke 60X 60mm. Air consumption ≤ 81 l/s. Working pressure 0.4-0.63MPa. Impact energy ≥ 70 J.

Yt28 rock drill air leg does not retract

Check that all of the drilling equipment is in good working order. Check that the impact surface of the working tool shank is flat, with no signs of wear. Make sure that the air inlet and exhaust ...

The YT28 air leg rock drill is most suitable for dry drilling downward and inclined blast holes in medium hard and hard rock with a hardness of F8-18. An ideal ...

We are a professional rock drill manufacturer. Our Air-leg Rock Drill has various specifications, mainly YT29A, YT29, YT28, TY28A, YT27, YT26. The weight of the drill rig ranges from 20KG ...

YT28 air leg rock drill adopts advanced rock drill design technology with high efficiency and energy saving. Through optimized design and technological innovation, it improves drilling efficiency, ...

⋮ Before starting the YT28 air-leg rock drill machine, you must carefully check whether the connections of the threads and snap rings are ...

YT28 air leg rock drill is mainly used for blasting holes and other drilling works in a quarries, railway construction, water conservancy construction and defence project facility.

Product Description: Air leg rock drill is rock drilling equipment with high impact energy, and lower air consumption, it is widely fitting for coal mine, ...

A pusher leg rock drill is a type of pneumatic (air-power) rock drill for mining, tunneling, and other construction applications where require drilling in rock.

YT28 Air-leg Rock Drill King Kong Drills company produce different size and type coal cutting picks, rock drilling tools, cutting picks, road milling teeth etc. ...

Our pusher legs and stopper rock drills cover all construction, tunnelling and mining applications in different rock formations. They are robust designed, ...

The YT28 Air Leg Rock Drill is a high-performance drilling equipment designed primarily for drilling and blasting heavy rock and concrete surfaces. The drill has several features that make ...
